Subject: OSC Activated

On 04/02/2019, at approximately 11:30 central time, OSC Moore has been activated to respond to an explosion in a chemical facility (KMCO LLC) in Crosby, TX. PDO was notified about the incident by EPA personal currently working on Intercontinental Terminal Company Tank fire in Houston TX. Airborne Spectral Photometric Environmental Collection Technology (ASPECT) has been activated to conduct air monitoring. ASPECT is expected to arrive at the location within an hour. At this time there is no NRC report for this incident.
